FiLe Filiera Legale

“**Fi.Le – Filiera Legale**” is a project financed by the National Operational Programme for Legality, PON Legality 2014-2020, under the European Regional Development Fund (ERDF), which aims to protect the agricultural production system against illegal practices in the agri-food sector through the creation of a platform with the dual function of dynamic and legal management of agricultural labour supply and demand and analysis of the territory.

The project stems from the Memorandum of Understanding signed among BMTI, the Ministry of the Interior - Management Authority of the PON Legality 2014-2020 and the Ministry of agricultural food and forestry policies.

The project promotes a preventive contrast to the illegal hiring through the creation of a transparent, safe and regulated system of intermediation between labour supply and demand and at the same time, provides to the Local Authorities an innovative knowledge tool of analysis of risk factors for the repression of the illegal phenomenon.
